

PINKING HEART BORDER PUNCH DIMENSIONS

©Anne Beale Yancey, www.mukibug.com

- You will lose $1/8$ " of paper from straight edge to point of pinking tooth.
- You will lose $1/4$ " of paper from straight edge to IMAGEABLE AREA when you punch the border.
- Figure out the size of your image area and add $1/2$ " to your dimensions.
- You will need to select the closest measurements below, to your needed dimensions because you can ONLY use the measurements below.
- The distance between each pinking tooth PEAK is $3/8$ ".

Measurements MUST be used to create a fully punched border!

- $3/8$ " for smaller	6- $5/8$ "	10"
3- $5/8$ "	7"	10- $3/8$ "
4"	7- $3/8$ "	10- $3/4$ "
4- $3/8$ "	7- $3/4$ "	11- $1/8$ "
4- $3/4$ "	8-1'8"	11- $1/2$ "
5- $1/8$ "	8- $1/2$ "	11- $7/8$ "
5- $1/2$ "	8- $7/8$ "	+ $3/8$ " to next larger
5- $7/8$ "	9- $1/4$ "	
6- $1/4$ "	9- $5/8$ "	

- You may use ANY combination of these numbers to create a rectangular shaped border.
- To continue on with larger measurements, just add $3/8$ " to 11- $7/8$ " and so forth.
